*"All our cheeses are supplied by 'Parlour Made' cheese. The Parlour Made dairy is set on a 240-acre site near Sedgefield and is a family run farm managed by Neil & Carol Peacock. The dairy herd consists of 120 Holstein/Friesian cows all of which were born on the farm. The family are passionate about herd welfare and every cow is known by name and family history, which ensures consistent high-quality milk. The morning's fresh milk is piped no further than 20 feet from the milking parlour into the cheese vat in the new, purpose-built cheese dairy, where cheesemaking begins. The only food miles are incurred at delivery stage, which helps towards the Feversham Arms lowering its carbon footprint and supporting local producers."*
